Welcome

to our American Science & Surplus catalog. Here you will find a unique mix of industrial, military and educational items, with an emphasis on science and education. We supply a wide range of unusual and hard-to-find items (some say bizarre stuff) to the hobbyist, tinkerer, artist, experimenter, home educator, do-it-yourselfer, and bargain hunter. Our items are great gifts, inexpensive supplies, and an endless reason for a giggle or a "Gee whiz!" We try to be scrupulously honest in presenting whatever we know about what we have, and always take it back, no questions asked, if the customer isn't satisfied with it. Please remember that we offer many more items than will fit on these pages. You can both peruse and purchase every item we have at our website: www.sciplus.com. Thank you for taking the time to browse our catalog. We appreciate your business.

Frequently Asked Questions

What is surplus?

We buy closeouts, inventory overruns, mis-manufactures, and items whose time has not come. We can usually acquire these items on a one-time-only basis. When a surplus item is gone, it is gone. So if you see something you love, best get it now since we may not have it tomorrow. Our website is frequently updated with our inventory. If you see an item in our catalog, but cannot find it online, it means we have sold out of that item. If our stock of the item you have ordered is exhausted we will refund that portion of your remittance. When we can't find surplus, we may carry regular merchandise which we think those interested in learning and tinkering will find appealing, but only if we feel it is good quality at a fair price.

Can I return items?

Yes. We accept all returns without question and will either refund your purchase price or send you a replacement, as you chose. Returns must be made within 30 days of purchase. For complete details, please check the order form bound in the center of this catalog.

What forms of payment do you accept?

We accept Visa, MasterCard, Discover, checks and money orders. We are sorry to report that we cannot accept CODs, cash, stamps or gold. **If paying by check, please be aware that you are authorizing American Science & Surplus to use the information on your check to make a one-time electronic debit to your checking account. This electronic debit will be for the amount indicated on your check. If you do not have sufficient funds in your account, a returned check fee may be debited from your account. If you have any questions, or choose not to have your check converted into an electronic item, please contact American Science & Surplus at (888) 724-7587.**

Do you have a minimum order requirement?

We regret that the costs of doing business preclude us from processing orders of less than \$10.00 merchandise value (exclusive of shipping and handling). We will return orders of less than \$10.00 merchandise value.

Additional information can be found on the order form bound in the middle of this catalog.

We bought them in bulk, and we're selling them in bulk. Our each is (2) lbs of extremely assorted, but very nice, ballpoint pens with a gallimaufry of logos and names. For future reference, pens weigh in at approx (50) per pound, give or take.

Metal CD Binder

Inside this dark-grey aluminum binder is a standard 6-ring binder holding (12) single-sided vinyl CD sleeves, but they'd hold paper just as happily. (Custom-cut wedding photos, perhaps, with the couple's playlist CD?) The binder is D-shaped, with a 1" wide x 5-1/2" high spine and rounded covers that extend to 6-1/2" at the farthest edge. Very minimalist. Very classy. You could buy just one, but be warned that you'll be back for more.

Always At Your Fingertips

Next to the postage-stamp-sized magnet that suspends our scissors on the wall of our cubicle, this is our favorite thing. The dark-brown, rubber-coated channel magnet is only 3/4" x 3/8" x 5/16", snaps around a standard ballpoint pen (up to 5/16" dia), and has just the right amount of strength to hold the pen on a metal drawer front or on the side of a file cabinet. And you can get enough for the whole office for less than the cost of your morning latte!

Really Looooong Sticky Notes

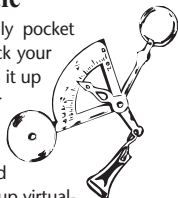

Sticky notes by the roll. And in neon colors. You get a roll 2-3/8" wide x 30 feet long, with the sticky along one edge just like the padded notes. Nice little teaching tool for kiddies, too.

42189 Scientific Calculator \$3.25/each

How Do You Figure?

It's a standard-function 8-digit calculator, but touch the LCD screen and it's an alarm clock. Touch it again and it's a giant walrus. It's bound to match something. Runs on (1) AAA battery not included.

It's actually a 7" x 3" x 3-1/4" space-saving oblate elongated spheroid that does all sorts of things. Comes with (3) dead "AAA" batteries so you can see where to put the new ones.

41509 Office Shark \$3.95/each
92294 "AAA" Alkaline Batteries \$1.95/pkg(4)

Green Laser Par Excellence!

Da Mare could use this to point out cracks in the infrastructure at Wrigley Field. You, having a forgiving nature, will resist the urge to point out cracks in da mayor's infrastructure. You will, of course, use it to point out chimney cracks to the tuck-pointer, a cracked limb to the tree-trimmer, and the crack in your profit picture during a slide presentation. You can do all that and much, much more with the bright light from this 5mW green laser pointer. It's an unbelievable tool. If you need a laser pointer that seems to go on forever and is so strong that you can actually see the beam in the dark, it will be the best low-cost investment you ever made. Or the coolest high-end toy. The 532nm Class IIIa light is 5-5/8" long x 1/2" dia, with (2) "AAA" batteries (included), a momentary-on switch, pocket clip, and case. Tootin' Our Laser

We don't like to brag, but it's tough not to in a case like this. This is a wonderful pen-shaped laser pointer, 5-1/4" long, flat black or silver with gold pocket clip and head. It throws a red point a loong way (we've thrown it two city blocks, and it would've gone farther, but buildings got in the way). And what are we so proud of? We've seen a very similar item—not identical, mind you, but essentially the same—in one of those glossy, toys-for-grown-men catalogs. Their price? \$20! Despite parental advice, here's a good reason to sit in a dark room and think small. Looks like a cheap kid-sized tennis racket, but brother, this ain't for the kids. It's actually a fine way for adults to work on their upper-body strength and kill bugs at the same time. 18" long, with a 6" wide paddle lined with metal grid. A coil in the handle sends high voltage through the paddle when a button is pushed; hit a bug with it and the bug will bug you no more. But despite the manufacturer's claims that it's safe for people, Scott reports that flesh-paddle contact delivers a nasty shock, nasty enough to say "Keep this away from kids!" Dogs Sleep Cheap

This unstuffed dog bed is perfect for unstuffed dogs and DIY dog owners. Measures 37" x 42" and is made to fit in the rear compartment of an SUV but would be just as fido-friendly on the family-room floor. One side is genuine faux sheepskin; the reverse is black vinyl. Center section zips closed to hold stuffing if you decide to stuff it and the (4) 7" tall beige flaps on the sides can be left as is, cut off or stuffed, but they'll need a little light sewing to close the ends if you do. Check your local PetsPalace to see how nice a price this is.

Patriotic Sign Kit

Hot dog! You can decorate your steel garage-door, fridge, or row of metal file cabinets for every patriotic holiday! This 33-piece sign kit can really be used on bulletin boards or elsewhere since the magnetic strips with one peel-and-stick side are packaged separately from the laminated images. You get a thumbs-up Uncle Sam, Statue of Liberty and bald eagle, all at 9" x 11"; a 10" x 5-1/2" USA sign; (3) each of Roman candle fireworks, Uncle Sam top hats, American flags and hot dogs, all approx 6-1/2" tall; and the 7" tall individual letters to spell "Proud to be an American (which would also spell "on a carbonated umpire" or "a dumber neon acrobat"). Arrange them as you like and then mount it all with the (40) 4-3/4" x 3/4" magnetic strips included.

41755 Patriotic Sign Kit \$7.95/each

Old Glory On Your Lapel

No need to keep changing flag pins when you buy in bulk and keep one on every jacket. These US flag lapel pins are just like those seen on famous lapels on television. Measure 11/16" x 3/4" with a standard butterfly catch on the back and come stuck on a laminated Pledge of Allegiance card. Package says it's also a bookmark, but that would be ridiculous!

42315 Flag Pins \$2.95/pkg(4)

Head For Hialeah

Our favorite rubber horse's head mask might unsettle the other folks on the bus, but don't let that stop you. Measures 17" long from genuine fake horse-hair mane to wide open nostrils and mouth, which are open so you can see through them. (You really have to see this on someone to appreciate it!) This colt's a sorrel/bay - OK, brown - with a white blaze and great big eyes. Looks a little like he's not real happy about going into the gate. Wear it with, yes, jockey shorts.

94352 Horse's Head Mask \$24.95/each

Got A Battery Operated Shotgun?

Thrifty duck hunters will like this 9" long x 3-1/8" dia plastic shotgun-shell bank. In copper and red, you add a pair of "AAA" batteries, drop in pennies, nickels, dimes, quarters and dollar coins (we don't know which ones) and listen to it lock and load and then fire a round. A 1-5/8" long LCD keeps count up to a penny short of \$10K, which it won't hold anyway. **⚠WARNING: CHOKING HAZARD-Small Parts. Not for children under 3 yrs.**

92294 "AAA" Alk Batteries \$1.95/pkg(4)

Picture Snake

Want to make sure you have someone's attention? Snap the jaws of this 1" alligator clip down on your note or picture or whatever, then bend its 7" long snaking body into a shape you like. Its base is a 2-1/8" dia double disk into which you can tuck the snake to store or shorten it. Includes a square of double-sided tape for wall mounting or added desktop stability. Modern. Minimalist. Interesting.

41415 Picture Snake \$3.95/pkg(4)

The Doorway Of Suzie Wong

This isn't the Cold War metaphorical bamboo curtain, it's an actual bamboo door curtain, handmade in Vietnam of 2-1/4" long x 1/4" dia sections of actual bamboo in a natural color. We like it for productions of Flower Drum Song, for turning your house into a Graham Greene novel, or just for hearing that cool rattle of wood against wood as you walk through it. Measures 78-3/4" tall x 35-1/2" wide, with a 7/8" X 1" wooden bracket ready to hang by four built-in wire loops.

42050 Bamboo Curtain \$14.50/each

Ten Inch Hair!

Just the thing to go with your nine-inch nails, this 10-inch tall black nylon faux mohawk (not to be confused with one of those wussy faux-hawks) has a stretchy elastic headband. One size really does fit all. And if you're not starting a punk revival it also makes a nice topper for a blackbird costume.

42453 Black Mohawk \$3.95/each

Jolly Barry

Why does Roger always get the credit for the skull and crossbones pirate flag? We feel it is time to share and have elected Barry to the post because he just walked by the vast editorial department here at A.S.&S.

(AKA "my desk") Our Jolly Barry flag is 3ft x 5 ft., black polyester with a reinforced edge containing grommets for flying. It has the traditional skull and crossbones in white with the added fillip that the skull is wearing an eye patch! Sail Away!!

91520 Jolly Roger Flag \$4.50/each

Astronautical Snack

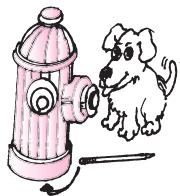

Freeze-dried Neapolitan ice cream, it says on the foil package, just like the astronauts got if they ate all of their freeze-dried peas. Not frozen, of course, or even chilled, but you get one yummy pack, ready to eat, just under half an ounce, which is more than you'd think.

89036 Freeze-Dried Ice Cream \$3.50/each

Plugging Away

Screw the metal stake into the bottom of this 8-3/8" tall x 3-3/8" dia wooden fire hydrant replica, stick it in the yard and watch your puppy learn how to piddle on this instead of the leg of the coffee table. Or a guest. Philip thinks these would be dandy tee-box markers for a fireman's golf outing, but then he thinks that way.

41762 Training Fire Hydrant \$4.95/each

Pull-N-Scratch

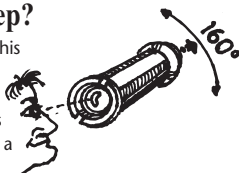

It's either a telescoping aluminum backscratcher, a fork for people whose elbows don't bend, or a sand rake for miniature Zen gardens. You pick. The 5-draw shaft extends from 6-5/8" to 20-3/8" long, the 5-tine rake is 1-3/16" wide, and it has a pocket clip.

93640 Pocket Scratcher \$3.50/each

Why Do Chickens Peep?

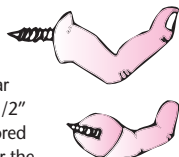

To see what's on the other side. This one-way, solid-brass peephole gives you a 160° view of the other side of the door. Fits doors 1-3/8" to 2-1/4" thick. Requires a 1/2" drill bit for installation.

39474 Peephole **\$2.95/each**

Digital Suspension Device

We're using semantic obfuscation to crowd this plastic finger hook into a scientific category. It really doesn't cut it as science, but sure has been a popular novelty in our stores. An embedded 1/2" long wood screw will secure this flesh-colored finger to a rail, the side of a desk, a wall, or the back of a door. It then functions as an amusing hook for towels, robes, coats, tools, or attention. In fact the silly things seem to be beckoning, but we were afraid to call them "come hither hookers" for fear of misinterpretation. When installed, the fingernail, which might look a bit better with a little bright red polish, stands 2" from the mounting surface. Sold in fours because this importer doesn't deal in thumbs. **⚠WARNING: CHOKING HAZARD-Small Parts. Not for children under 3 yrs.**

6201 Finger Hooks **\$7.95/each**

Suit Your Soil

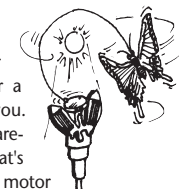

Grow a beautiful garden full of plants that love your soil! It's easy if you know your soil's pH, and we have a gauge to help you! Stick the probe into moist soil for the pH to register in a separate 4" x 2" x 1" gauge box on the end of a 26 ft. cord. That let's you keep the probe in the garden while reading the gauge at your doorstep! A needle indicates the pH on a scale of 3.5-9, and you get a list of which plants like which pH levels.

91586 Garden pH Gauge **\$17.95/each**

Solar Butterfly

All butterflies are solar, we suppose, but this one needs more concentrated power than the cocoon kind. We'll pick either a monarch or yellow swallowtail for you. Spookily real-looking and flying to a fare-thee-well on a delicate 10" inch wire that's mounted on the offset cam of a small DC motor with a butterfly-shaped solar panel. Snug the device, on a 13" dark-green plastic support column with its easy-to-insert stake, close to a plant in the garden or a flowerpot, and it will blend right in. The butterfly won't get tired and won't leave until you move it. Add a "AA" battery for cloudy days or a housebound or night-flying butterfly. So much easier than trying to train nature.

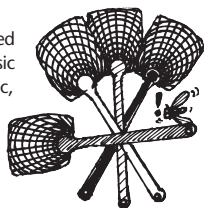

94330 Solar Butterfly **\$11.95/each**

Scrunch A Buncha Cans

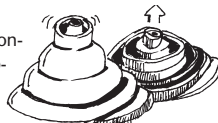

Reduce recycling space with this wall-mount steel can crusher. Very satisfying to use: pull the 12-1/4" long padded handle and it easily smooshes cans up to 5-3/8" tall (standard aluminum beverage size) into squat little accordion-pleated stumps. The black and gray steel unit mounts with the included screws and has a handy bottle opener under its front lip, because you don't.

Funnely Enough

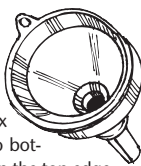

For your kitchen drawer/toolbox convenience, this collapsible, red rubber funnel starts at 1-1/2" tall by approx 5-1/2" dia and extends to become a 6" deep funnel with a 3/8" ID outlet. 41808 Collapsible Rubber Funnel **\$5.95/each**

A Funnel As Big As A Hat

If the Tin Man had been plastic, this would have been his lid, and he'd have been rust-free. Our giant red-plastic funnel is 9-3/4" dia with a 3-1/8" long x 15/16" ID neck. Just under 10" tall top to bottom. Hang it by the little tab with a hole on the top edge. Buy (3), get a tennis ball, and run the biggest shell game in town.

It is enameled steel, 17" wide x 10" deep, with a slight retaining lip 3/4" in from the front edge. The handle is an 8" tubular loop, shaped to let you get a good grip on it with its bright orange no-slip grip coating. It's industrial equipment, but perfect for your basement or garage, or for cleaning up after your St. Bernard.

33407 Dustpan **\$9.25/each**

Can you say recessed lighting? Ceiling fan? We'll select one for you in a flattering purple, line green, pink or light blue. Would also make a can't-miss baton for a high-school band director.

You love these. When these 3-ounce teacups were made for Northwest Airlines, Thailand was still called Siam, which we know because that's where they were made and it says so right on the bottom. Measure 3-3/8" dia x 1-13/16" tall with dark and light blue extremely skinny stripes just below the rim. Don't drink tea? Think double espresso.

Chip Grippers

Plastic spring-loaded potato chip bag closure clips. You get two dozen (a pair of 12-packs) which is probably more than you have open bags of potato chips at one time, we figure. But these are Universal Chip Clips, which means you can use them to close bags of nacho chips, pita chips, corn chips, bagel chips, BBQ chips, ruffled chips, microchips and paint chips. Or up-to-1/2" stacks of paper. Each clip is 2-1/2" long x 13/16" wide. Most are a soft orchid hue, but some special people might get different colors.

Drinking Bird

You're buying the drinks and this wacky, yet debonair, bird with a top hat and plastic base (7" tall OA) can't get his fill of water. Get him started, and he dips his beak into your glass repeatedly. How? Fluid inside his glass body condenses from the evaporative cooling of the water off the bird's beak, making it top heavy and dunking it back into the water. The condensate rejoins the liquid pool in the bird's bulb, and he tips up again. Process continues indefinitely. It works, but it's not any more than moderately well made, and not any more than moderately priced. **WARNING!** The fluid and dye inside the bird can permanently stain, and the bird's glass body can easily be broken. Children are fascinated by the bobbing bird, and the educational possibilities are great. But they should watch him, not fondle him!! Manufacturer warning states this item is not intended for children 8 and under. **WARNING:** CHOKING HAZARD-Small Parts. Not for children under 3 yrs.

Put two fingers in the little pockets on his paws, pull his bungee arms back, and let him go. Original Slinky®

Does anyone need to be told what a Slinky(tm) toy is?? Okay, it is a very slack spring, 2-7/8" dia x 2-1/2" long, compressed. It will stretch out to about 5 or 6 feet long without deforming. That's the boring part. The interesting part is that it "follows" itself. Slosh it from hand to hand. Put in on the top step of stairs, flip the end down a step, and watch it walk down stairs, or down an incline. Believe us, no childhood (or adulthood) is complete without an original stainless steel Slinky(tm). It was hard for us to find it, but we are glad we did. These 12-3/4" long plastic cones are 5-1/2" dia at the bottom and taper down to 1-1/4" at the top, with handle cut-outs. Called Hydro Cones, you pull the wide end under the water and then witness the focused H2O explosion that blasts skyward from the skinny top. If that's not enough fun, just use them as pool-side traffic cones or megaphones to yell at the kids. We'll pick from purple, yellow, orange and green.

Incredibubbles!

We love these! You're going to love these! Your kids are going to love these! Hundreds of clear marble-sized bubbles can cover the floor, cling to the sides of furniture, land on your arm. They float enchantingly, rising on air currents you can't even feel. After a few seconds, the bubbles are hard enough to catch or stack. Some will still be perched in out-of-the-way spots a day later. Touchabubbles goop, thicker than the bubble-blowing liquid you're familiar with, comes in a 4" plastic test tube with a wand built into the cap, and a clip on the side so you can carry it in a shirt pocket. The goop is nontoxic, but it tastes really bad, and you probably won't want these landing on expensive tabletops, so kids under 8 should have adult help with them. They should be sharing the fun anyway! **ΔWARNING:** CHOKING HAZARD-Small Parts. Not for children under 3 yrs.

You'll Be Singin' In The Rain

Put a little fun in your rainy days with these Wiper Glasses. The large, round and fashion-forward clear plastic lenses (sorry--no prescription lenses available) are set in alarming blue frames. The wipers are driven by (4) button-cell batteries (included!) and there are flashing red & blue LEDs on the nose bridge to make these specs even more attractive.

The sky-high wackiness factor means that they may not actually wipe away the rain, but you can't have everything. **ΔWARNING:** CHOKING HAZARD-Small Parts. Not for children under 3 yrs.

Calf Horn

Why lug a full-grown bullhorn around when you can get bullish sound (it can be heard up to 100 meters away) from a much smaller bovine blaster. This one's oxymoronically named the Mini-Mega-Phone. It's plastic, just 5-1/2" long with a 3-1/2" dia bell, 3" long fold-out handle, and a lanyard. In lively colors, so even without a lanyard, it would be hard to lose. Bonus: it plays Happy Birthday! You add (6) "AA" batteries.

Approx 7-1/2" tall, runs on (2) "AA" batteries (not included) with a power switch under his monkey bottom. **ΔWARNING:** CHOKING HAZARD-Small Parts. Not for children under 3 yrs.

Bone Up On Anatomy

You're not going to blow money on an actual human skeleton, are you? Consider that for a tenth of the price you can get an anatomically accurate skeleton done in plastic. This model is male (judging by the hips) and has many articulated joints—jaw, shoulder, knee, etc. Its small size (33") makes it practical for classroom use, since it can be passed around the room. Other nice touches include discrete neck vertebrae, a sectioned skull, and very little "flash" from the plastic molds. It also comes with a metal display stand, weighted at the bottom to prevent spills. Yes, some concessions had to be made because of the size and price, but this is still an invaluable teaching tool, and quite a nice decoration for those with morbid minds.

89242 Plastic Skeleton \$59.95/each

Ready Or Not Skeleton

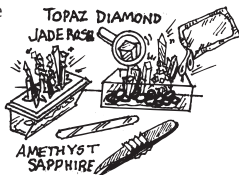

This skeleton is actually used in medical and other schools for teaching. The bones are plastic, but other than that it's as realistic and anatomically correct as they come. The ready-to-use 5' 7" tall skeleton is mounted with a 360° swivel at the pelvis from a heavy-duty metal rod on a stand base with castors. It has a skull with a removable section, hinged jaw and (2) removable teeth; plastic zippered dust cover; and stainless steel wire, brackets and wing nut assembly for long life. It's articulated at all joints except the spine, so you can demonstrate flexion/extension, or merely pose it in a debonair posture.

Scope Your Stethos!!

Stethos is Greek for chest. Indeed you can scope your stethos with this stethoscope, or your friend's or your dog's. But it works equally well for picking up any sound being transmitted through a solid medium. Listen to the air flowing through the heating ducts, the water in the pipes, the sounds of machinery, the termites munching on the floor joists!! The color does vary so we will select from what's currently available. We've had blue, teal, red, black, burgundy, green and purple, but there may be other colors yet to be seen!! A great discovery device whether for biology or other pursuits. Not of professional quality, but not just a toy.

How Does It Work?

Why does it do that? Develop an elemental understanding of magnetism, electromagnetism, electrochemistry, radio, thermodynamics, light and optics. Simon Quellen Field's 228-page paperback, *Gonzo Gizmos, Projects & Devices to Channel your Inner Geek* explains processes, equipment and scientific terms — and then, for starters, tells you things like how to make a rotary steam engine in 15 minutes from a soda can, a candle and a few scraps of rubber tubing. It's the favorite of our resident geeks — but not for kids unless they're working with an adult. That would be a mature adult. An insured, mature adult.

Go Ballistic

If you're devoted to explosions, and who isn't, you'll love the new expanded 2nd edition of William Gurstelle's *Backyard Ballistics*, now 25% longer, with 25% more ka-boomery. Still the go-to reference work for building rockets, cannons (carbide and potato), flingers, fire kites, electromagnetic pipe guns, tennis ball mortars, cleaner-bag balloons, ballistic pendula and petards. You simply can't have more fun with common household materials. The soft-cover, 210pp compendium includes detailed and illustrated instructions, parts lists and sensible ways not to be hoist on your own petard. Be careful out there.

Everybody Spews

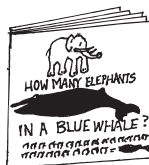

We're not expecting to see a Pulitzer awarded to Rumble and Spew, unless they put 10-year-old boys on the committee, but it's a sure winner for middle-school readers. Subtitled *Gross Stuff in Your Stomach and Intestines*, it includes fully-illustrated sections on saliva, stomach acid, burps, farts, poop, puke, digestion and food poisoning, including actual scientific information! Disgustingly educational, but in a good way.

A Tower As Tall As 177 Eiffels

You know how people are always saying something is three football fields long? This little book of measurements, *How Many Elephants in a Blue Whale?*, has 128 pages of equivalents, combining interesting, educational and fun revelations under one cover, to wit: there are 25 elephants in that whale, 25,000 bathtubs of water go over Niagara Falls every second, a VW Beetle weighs the same as 25 average drivers, and quick as a flash is 0.001 second.

It's a must-have for micro-warriors: *Mini Weapons of Mass Destruction* by John Austin (author of the best-selling *Cubicle Warfare*) is 241 pages of detailed instructions on building (42) implements of spit-ball warfare from ordinary household objects and office supplies. With the caveat that this is written for responsible, aware individuals who take reasonable safety precautions, we have to tell you that we particularly like the binder-clip crossbow. Giant Whether Balloon

If the question is whether to tie a bunch of these giant weather balloons to a lawn chair, the answer is no. (They burst at about 82,000 feet anyway.) Besides, this is a true weather balloon, with plenty of fun, nonfatal uses. The cream-colored latex balloon is approx 40" dia when flaccid, you should pardon the expression, but has an 8-foot dia when inflated. The neck is 9" long x 1" dia. Scientists, meteorologists, inventors, teachers and the imaginative filmmaker are warned to launch the balloon carefully. The material is delicate and not made to survive brushes with pavement, pine branches, or clumsy physics students.

Unfortunately, C.J., who has perfect pitch, tells us that his pitch is more perfect than most of the tuning forks. He also says you can file the tips, tuning them to an electronic keyboard until they're perfect - and we think there's a certain cachet to telling people you tuned the forks yourself. Bigger Sheet Magnet

This strontium ferrite sheet is stronger than your average fridge magnet, and considerably bigger. Measures 7-3/8" sq x over 1/16" thick, with (2) adjacent corners trimmed off. Rubberized finish; black on one side, writable white on the other. Can be easily cut with a scissors.

40797 Sheet Magnet **\$6.95/pkg(2)**

Excellent Electromagnet

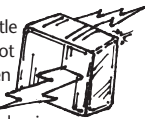

Physics project alert! This robust puppy of a magnet has dual 6V coils and stands 4" high x 3-1/4" wide, not counting the side terminals. Each coil draws 2.4A at 6VDC, and is conservatively rated for 40 Newtons (approx 9 lbs) at that voltage. Can be wired in either parallel or series, and comes with a mounting hook. Works great with a 6-volt lantern battery.

93088 Electromagnet **\$16.95/each**

Killer Magnet

Once upon a time, a copywriter put this little magnet next to his computer monitor and got really pretty, wavy, aurora-like effects. And then got a new monitor! Don't try this at home. Our shiny, silver-colored 1" x 1" x 1/2" neodymium magnet looks innocent, but is industrial strength, pulling something like 25 lbs with enough strength left over to erase all your credit cards. And wreak havoc with your monitor.

38694 Killer Magnet **\$14.50/each**

Shapely Ceramic Magnets

These evocative ceramic magnets are approx 1-1/4" to across with approx a 1/2 to 3/4-lb pull. Polarized on one face only (the one with the divot). Great for showing attract/repel qualities at say, a science fair. You pick the triangle, five-pointed star or heart shape.

42094 Triangle Magnet **\$2.95/pkg(10)**
42095 Star Magnet **\$2.95/pkg(10)**
42096 Heart Magnet **\$2.95/pkg(10)**

Sticky Cylinder

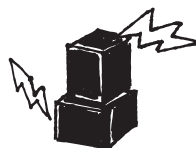

This 5/8" dia x 5/8" long solid cylinder is an unplated neodymium magnet that will take about 10 pounds of effort to get off your file cabinet. Even if you hang your heavy coat on it and it slowly slides down, it'll still be hangin' onto that cabinet!

41364 Neodymium Cylinder **\$2.95/each**

Ceramic Block

This small ceramic magnet is 3/8" (10mm) square x 5/16" (8mm) tall, with an approx 1/2-lb pull. Useful for anything little magnets are used for, from minimalist message boards to one of your creative inventions, although we'd keep this away from the kids. You know what omnivores they are!

41707 Ceramic Block Magnets **\$2.95/pkg(25)**

Magnetic Pull

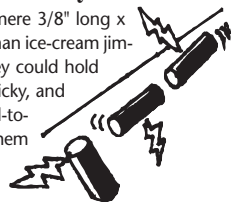

Add a door/drawer pull to any ferrous surface with this 1" dia x 1/4" thick neodymium disc in a polished sleeve with a 3/16" dia hole in a stand-off. Comes with a 1" slip-ring attached, and hangs on for 22 lbs worth. Plenty handy for hanging stuff from other stuff, too.

93515 Magnet Pull **\$8.50/each**

Light Duty Magnets/Desk Toys

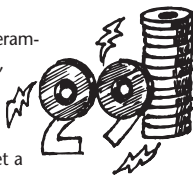

These tiny alnico magnets are a mere 3/8" long x 1/8" dia cylinders, slightly larger than ice-cream jimmies, with approx 1/4-oz lift. They could hold sticky notes that have lost their sticky, and they hang on to each other end-to-end really nicely, so a bunch of them are fun to play with as a desktop toy, but they're really great for magnetic reed switches.

37407 Cylinder Magnet **\$3.75/pkg(25)**
37407P200 Cylinder Magnet **\$14.50/pkg(200)**

Plain Donuts

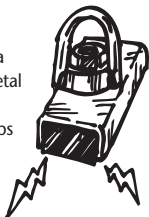

Can't beat a classic. These uncoated ceramic donut magnets have a 1-lb pull, which makes them dandy for classroom or refrigerator use. They measure 1-1/4" dia x 3/8" ID x 3/16" thick and are polarized on the faces. You get a wrapped roll of 29 donuts.

40007 Uncoated Magnets \$5.95/pkg(29)

A Lot Of Pull

Pick up this 1-3/4" x 7/8" x 3/8" ceramic pick-up magnet while we still have it. It's in a heavy metal housing and has a stationary metal hoop, about 1/2" i.d., on top. The manufacturer tells us the magnet will grab up to 30 lbs of metal, and while Pat wouldn't bet on anything over 20 lbs, it's still very strong. Especially if you're going to dangle it on the end of a cord to gather spilled nails or to fish your keys out of the lake/pond/sewer/drain!

91859 Pick-Up Magnet \$2.95/each

Bar 10

Buncha bar magnets made right here in these United States. These are attractive black ceramic, 1-7/8" long x 3/8" square, with an approx 2-lb pull. Nice for craft and science fair projects, and priced so that the whole class can experiment with iron filings at the same time. (Guess who sells iron filings?)

41425 Bar Magnets \$5.95/pkg(10)

Nickel-Coated, Quarter-Sized

Nice rare-earth neodymium disk magnet, 1" dia, about the same as a quarter but over twice as thick at 4mm. Rare-earth magnets are permanent and powerful, and this one has approx 7 lbs pull, and always will. Comes with a galvanized metal keeper approx 2" dia so you don't lose it.

93798 1 Inch Disk Magnet \$4.25/each

Ceramic Reefers

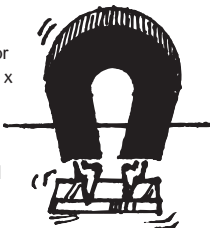

Beautiful refrigerator magnets, all set to be imbedded in your child's best ever creation for refrigerator work. Six file card holding power, 3/4" dia x 3/16" thick ceramic with beveled edges to minimize chipping. They don't come much better than that!!

89444 Ceramic Magnet, 3/4" \$3.50/pkg(8)

Ponyshoe Magnet

Little-bitty horseshoe magnet, for traditionalists. Just 1-1/4" across x 1" x 5/16" thick. Red-painted Alnico, with approx 2.9 lbs of pull (ignore the 2 lb on the label) it includes a little steel keeper for when it's not sticking to a tiny horse's foot.

93837 Horseshoe Magnet \$5.50/each

Rare Find!

Rare earth magnets are usually killers for their size, and these thick nickel neodymium discs are no exception. The price, on the other hand, for (3) 7/16" dia x 1/4" 5-lb lift or (2) 9/16" dia x 3/16" 8-lb lift magnets each stored on a 2" dia steel disc, is a rare exception.

Mess-O-Magnets

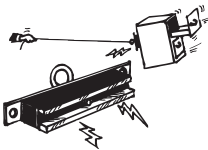

A whole bunch, yea a whole classroom's worth, of ceramic magnets for a song. You'll get 2 pounds of the attractive little things, which will be a few dozen or more of them in assorted sizes and shapes. The largest are likely to be 1-1/4" dia and the smallest 1/2" x 1/4" but there may be others, and they're all strong little bug-gers. Buy in bulk and make your own maglev model train. Our each is 2 lbs.

93651 2lbs Assorted Magnets \$7.85/each

A Real Grabber

Okay, it isn't the cheapest magnet in the warehouse - but we dragged John's 165 lb filing cabinet around the dock with this 4-7/8" x 1" x 3/4" ceramic magnet, we're rating it conservatively at 100 lbs of pull, and we think it's a bargain. It has a 6" bracket with mounting holes on 5-1/2" centers, plus a 1/2" ID eyehook bolted into the center of it. It's all set to troll the bottom of the lake next time your filing cabinet falls overboard.

91949 Pick-Up Bar Magnet \$10.95/each

Dandiest Donut in the Domain

Donut magnet you can take to town!! 74mm dia x 14mm thick with a 30mm hole. Very strong and well pedigreed - in fact, its kin are activating pacemakers. They are of a high permeability ferrite material with a lovely light blue or white epoxy coating. Okay, we have them because there is the odd bubble, slight scratches or the word MAGNET painted in the coating which ruled them out of the medical ball, but they're fine company nonetheless. Good display bases, paper clip traps, and super for classroom demos.

2823 Black/White Donut Magnet \$3.75/each

Ceramic Power

Ceramic magnets can be quite powerful and have excellent resistance to demagnetization. These rectangular ones are no exception. Add the power of surplus and we'll give you these mighty-mites for bargain prices. This 3-lb-pull guy is 1-7/8" x 7/8" x 3/8" thick, for mounting bigger pix, we figure.

10584 3-lb Ceramic Mag \$2.50/pkg(2)

Alnico Bar Magnet

Pair of alnico bar magnets, each 7/16" x 1/4" x 3". Magnetized end to end with the North pole marked, the North end painted red and the South pole painted blue. Come with a pair of keepers and a wood separator bar.

Throw a Net over It, Marge!

We wouldn't try to capture 'gators with it, but this 4-ft x 6-ft black nylon, elastic (not-un-bungee-like) cargo net should trap anything else in the back of the pickup, van or kids' bedrooms. Stretches to about 6' x 9', with openings that are 7" square, stretching to maybe a foot, and 16 carabiner-style plastic hooks. Or just hang a couple on a wall for a nice Spiderman effect.

Fishnets

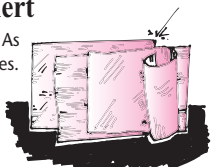

Not fishnet stockings, but netting for actual fish, direct from the U.S. Army (you'd think Navy, wouldn't you?) in olive drab. It's a survival thing. You get a 10-foot x 5-foot net made of 3/4" squares individually knotted from twisted cotton/nylon, so the net won't unravel if torn. Might have a slightly musty aroma (but definitely not fishy) that a little sunshine time will fix. Great for maritime-theme decoration, bible-camp plays (filled until breaking, walking-on-water background prop...) or, we suppose, fishing. And perfect if you want to go to a costume party as Poseidon.

Scary Molds

These white porcelain molds from the balloon industry are, frankly, the scariest medical-looking non-medical items we've seen in a long time. They come in all sorts of sizes, mostly from 5" to 10" long, and a bunch of shapes: rounds, ovals, screws, rods, storks, mouse heads, all on shafts with a threaded end to screw into the balloon machine. They're a surrealist's dream, the answer to an avant-garde sculptor's prayers, and great items to leave in your medicine cabinet for nosy guests to find. Sorry we can't fill requests for particular shapes. It's all we can do to pick out (3) different ones for your package of (5), so try not to make Kathleen feel bad by begging for mouse ears. Thank you.

Tub For Toys

Originally intended for hospital use (Think Nurse Cratchit. Think cold, wet sponge baths.), these 12" x 9-1/2" x 4-1/4" deep washbasins have rounded ends and flat lips. The #5 plastic is that wonderful institutional-yellow color. But they're indestructible, short of melting them, and they nest when not in use. Use them to store your craft supplies, the kid's action figures, the cat's squeeze toys. Or take up nursing.

Monkey Dishes

Little bowls like these are called monkey dishes in the restaurant business. Doesn't pay to ask why, we think, but they're extremely handy. These are stainless steel, 4-1/2" dia x 1-1/2" deep. They're marked "Pet Bowl," but wouldn't work for anything over kitten size. We'd use 'em for peas, paints, pickles, peanuts, paste, prune pits, like that. You run out of p's, you could use them for ketchup, mustard or mayonnaise.

Round-Bottomed Cuties

The compartments in these clear plastic trays are round-bottomed for ease of grabbing (add your own joke here) and would be dandy for sorting craft items, storing earrings or keeping pills. They're 4-1/2" x 3-1/2" x 1" deep trapezoids, with (5) 1-1/16" dia x 15/16" deep ports plus (1) trapezoidal one 2" wide at the top, and a snap lid. Would also make nice closable paint-pots.

Fallout Shelter Sign

They're Back! Those of a certain age will remember being taught to crouch under their school desks in case of nuclear attack. Shortly thereafter, the gov't, in its infinite wisdom zoomed about the cityscape plastering black and yellow signs on buildings with basements to designate them as fallout shelters wherein it stored cans of water and radiation meters which were so insensitive that any reading could only mean the past tense of crispiness. We have a quantity of these signs, brand new in the sense that they have never been plastered, but antique in the sense that they are the Fifties originals. 10" x 14", 25 ga. galvanized steel. They have a black base coat on the front over sprayed with orange/yellow reflective paint in the familiar design rendered nearby by our faithful artist. Fishless Fishbowl Project

The AquaPetz No-Fuss Fishbowl is a small plastic bowl with colorful fake fish that swim around -- sometimes. The motor shaft that moves the magnet in the 4-1/8" x 3" mock-rock base may or may not be sticky. If it is, a handy person like you could fix it pretty easily or at least use the parts -- a battery case, small DC motor, belt & pulley, armature, magnet, bowl, fake fish, maybe a turtle, pebbles...the possibilities are endless. And if it's not sticky, you've got enough carefree pets to amuse two kids, for an astoundingly low price. **⚠WARNING: CHOKING HAZARD-Small Parts. Not for children under 3 yrs.**

A Snarl of Magnet Wire

One of those sharpie East Coast outfits pulled a fast one on this poor naive Midwestern dealer. The result is we have a pile of exotic coated magnet wire. The coatings and colors vary widely, as does the gauge of the wire. With a couple of exceptions there isn't enough of any one kind among the hundreds in the pile to list separately. So we are offering an assortment and you get whatever we grab. Either way you will get a terrific value, particularly if you have an exotic application and get just what you need. Krazy Like a Foks

They call it the "Krazy Cutter" and it's going to make your life a whole bunch easier. It's a little 2-3/8" long x 3/16" thick teardrop-shaped paper slicer with a teensy rust- and dullness-proof ceramic blade that magically cuts through paper and plastic. Perfect for clipping newsprint, cutting wrapping paper, and opening deviously sealed packaging, including the heavy stuff if you press a bit. Even CD cases. The krazy part? Won't cut your fingers or anything else. You could run it right over your hand, press down and everything, and nothing. Really. We tried it on some expendable employees. You know what this means? You can take it on airplanes, which further means that when you get to the coast you'll actually be able to open all the packages full of the stuff you sent ahead.

Cut Right To It

This all-purpose scissors is the favorite of everyone at A.S.&S.: Pat uses his to cut and strip wire. C.J. uses his to slit the tape on packages. Mary Ann uses hers to open bags of pretzels. It's 6-1/4" long overall, with a very sharp 2" stainless steel blade and large, comfortable handles. (Colors will vary). It would sell for \$9.95 retail if it was new, but it was used for one day to cut cloth in the assembly plant of a major car company, then discarded. Quality control is a wonderful thing.

Cool Tool

Winner of this week's "What IS That?" award. It's a watch crab, also called a spanner wrench, that's designed to remove the back from watches, lenses from telescopes, and other thin, flat components from whatever they're attached to. Heavy for its size, it's 1" x 2-3/4" x 3/8" thick, with sharp 1/4" prongs projecting from the edge. The prongs move from 2" to 7/16" apart as you spin the furled nut between them. An impressive tool to flash in front of your brother-in-law. If he doesn't read our catalog, he won't have a clue!

Grabbers

Gadgeteers, get out your charge card. This is an instrument you absolutely have to own. It reaches down below sofa cushions, inside piggy banks, into fish tanks, and past a gallbladder. It has small 5/8" long serrated jaws, delicate but tight, at the very tip! Better buy an extra. We guarantee people are going to "borrow" these if they see them.

Ratchety Wrench

Call it the adjustable thumb wheel wrench made easy. The Adjustable Rapid Wrench™ is a 10" thumb wheel wrench with a padded handle and a special tooth in the jaw so it ratchets back or forward, which means you don't have to keep taking it off the nut and putting it back on while it keeps getting looser and not fitting so you just have to adjust it all over again, which drives us nuts, too, or did until now. Jaws open to 1-1/2". Plus you get a bonus 4-draw, 18-1/2" long swivel-head magnetic pick-up tool, for when you do the last few turns with your fingers and drop the bolt.
